

HOW TO ORDER SALT CHLORINATION

It's as easy as 1-2-3: Pick your chlorine generator, then your Turbo Cell and options.
New for the 2009 season, Turbo Cells will be purchased separately.

1: PICK YOUR CHLORINATOR

Aqua Rite Pro and Aqua Rite	
AQR-PRO	Aqua Rite Pro software revision 1.10
AQR	Aqua Rite software revision 1.50
AQR-X296	Aqua Rite for arid climates; supports higher temperatures and salt levels; includes fan, software revision 1.50
Aqua Trol	
AQ-TROL-RJ	Aqua Trol, return jet, straight blade
AQ-TROL-RJ-TL	Aqua Trol, return jet, twist lock
AQ-TROL-HP	Aqua Trol, hose/pipe, straight blade
AQ-TROL-HP-TL	Aqua Trol, hose/pipe, twist lock

2: PICK YOUR TURBO CELL

Turbo Cells	
T-CELL-15	40K gallons, 15-ft. cord, 3-year warranty
T-CELL-9*	25K gallons, 15-ft. cord, 3-year warranty
T-CELL-3*	15K gallons, 15-ft. cord, 3-year warranty

*New Turbo Cell minimum software requirements: Aqua Rite Pro 1.10, Aqua Rite 1.50

3: PICK YOUR OPTIONS

Options	
E-KIT	Electrical Installation Kit
AQL-CHEM	Chemistry Kit ORP and pH Sense, ORP Dispense
AQL-CHEM2	Chemistry Kit pH Dispense Solenoid Valve for CO ₂ , 120V
AQL-CHEM2-240	Chemistry Kit pH Dispense Solenoid Valve for CO ₂ , 240V

Note: Sense and Dispense chemistry kit options available only on Aqua Rite Pro.

Salt Chlorination

It's amazing what a little salt can do to enhance your pool experience.

Just some of the many ways we're reinventing the pool experience.

The Best Experience,
Automatically.

Salt Chlorination – No more mixing, measuring or mess.

Forget about mixing, measuring or messing around with liquid or tablet chlorine. Say goodbye to red eyes, itchy skin, heavy chemical odors and unwanted bleaching of toys and clothes. Now there's an easier, more efficient and cost-effective way to satisfy 100% of your pool and spa's sanitization needs and enjoy water that's always clean, clear and luxuriously soft.

USE A MINIMAL AMOUNT OF SALT

A teaspoon of salt per gallon is all it takes. Salt won't wear out or evaporate; it's used over and over again. Day in and day out, you have fresh, pure chlorine introduced evenly throughout your swimming pool and spa. Salt-chlorinated water is perfect for plaster, pebble, vinyl and fiberglass pools up to 40,000 gallons.*

REMOTE ACCESS VIA INTERNET AND WI-FI NETWORKS

Aqua Connect™

Aqua Connect now gives you the freedom to monitor your pool and spa anywhere - from the Internet or any wireless device using your home's Wi-Fi network. When teamed with Sense and Dispense™ chemistry automation, you can check sanitization and pH levels. Do this all and more from a PDA, cell phone or your laptop. Aqua Connect will even alert you when something is out of range or not working properly.

TOTAL POOL CHEMISTRY

Sense and Dispense

What if your pool could self-adjust, automatically test its own chemistry, and balance and sanitize the water? What if it always knew what the water needed and adjusted continuously, eliminating unhealthy highs and lows? Ensuring brilliant, balanced water all the time, automatically. You can get your water in balance with Goldline Controls®.

This professional-grade ORP and pH sense-and-dispense technology was previously only available for commercial pools. Goldline Controls now offers an economical approach, with the same level of accuracy, for residential in-ground pools.

For more information on how Sense and Dispense works, contact Goldline Controls for a Total Pool Chemistry brochure.

Aqua Connect and Sense and Dispense are options for Aqua Rite™ Pro.

RIGHT-SIZED SALT CHLORINATION

Turbo Cell®

Goldline Controls now offers a new line of Turbo Cells for their salt chlorination and controls solutions. The cells now come in three sizes – 40,000, 25,000 and 15,000 gallons. The new sizes enable you to right-size your pool for the most-efficient and cost-effective chlorination possible. These cells are based on the proven Turbo Cell technology that made Goldline Controls the leader in salt chlorination. They automatically generate a self-renewing supply of fresh, pure chlorine – for water that's clean, clear and luxuriously soft.

New for 2009 season, Turbo Cells will be sold separately.

SALT CHLORINATION FOR IN-GROUND POOLS

Aqua Rite Pro

Salt chlorination with Sense and Dispense. Professional-grade Aqua Rite Pro takes pool and spa sanitization and chemistry management to new levels, building upon the industry-leading salt chlorinator – Aqua Rite™. This integrated solution automatically senses sanitization and pH levels and dispenses a self-renewing supply of pure chlorine generated from salt, while controlling pH. Integrating chemistry automation with sanitization eliminates the need for an additional device on the pool pad and lowers installation costs. So now you get the most consistent water quality possible, water that's brilliant, soft and silky smooth, for the best possible pool experience.

Aqua Rite

Aqua Rite provides complete pool and spa sanitization using ordinary salt. Its extremely safe electrolytic technology uses a low-voltage electrical charge to convert a small amount of salt – approximately one teaspoon per gallon of pool water – into a virtually endless supply of fresh, pure chlorine. This environmentally friendly and self-renewing process produces up to 1.45 pounds of chlorine a day, enough to keep the water in a 40,000-gallon pool clean, clear and luxuriously soft.

**For pools over 40,000 gallons, use additional unit(s).*

SALT CHLORINATION FOR ABOVE-GROUND POOLS

Aqua Trol® Salt Chlorination

The affordable salt-chlorine-generation solution for above-ground pools.
